Journal - Office of Legislative Counsel
Friday - 14 May 1965

Page 3

25X1 9. [] Met with Mrs. Eleanor Lenhart, Assistant to Senator John J. Williams (D., Del.), who advised that the Senator appears at the moment to be satisfied with the General Counsel's letter of this week and that he will call me after further review should he desire any further information.

25X1 10. [] In response to a call from Senator Henry M. Jackson (D., Wash.) to Mr. Warner, I stopped by and received a sealed envelope from Dorothy Fosdick. Miss Fosdick indicated that there was no explanatory note, that this is an original letter.

25X1 11. [] Met with Congressman George Miller (D., Calif.) on the Director's behalf and offered a briefing for the Chairman of the House Science and Astronautics Committee on the Soviet space program. Representative Miller indicated he had intended to contact the Admiral concerning a briefing for himself and his senior subcommittee Chairman to include Representative Daddario who at one time was associated with OSS in Italy. Representative Miller indicated further that he would make direct contact with the Director on this matter. He also noted that he was most appreciative of the Director's consideration in having me drop by to see him.

25X1 12. [] I met with Mr. George Meader, Counsel to the Joint Congressional Committee on the Organization of Congress, and received from him a copy of Representative Jonathan B. Bingham's statement before the Committee yesterday, May 13, concerning his recommendation for a Joint Committee on Intelligence. In discussing the testimony before the Committee, it was also noted that Representative Robert P. Griffin (R., Mich.) raised the question for the record concerning the jurisdiction over the Central Intelligence Agency at this time of the Foreign Relations Committee of the Senate, Foreign Affairs Committee of the House, and the Government Operations Committees of the Senate and House. Representative Griffin noted this question for possible further discussion by the Committee.
